2026 CATALOG

URBAN WOODS

Crafted in Transylvania since 2010

ABOUT US

It all began in 2010, in a workshop in the heart of Transylvania, with a simple question: what happens to the old trees that disappear from our towns and villages? We chose to give them a second life.

Our wood does not come from forests, it comes from the places where people live. We rescue it from city streets and rural homesteads, from parks and private gardens, from everywhere an old tree has spent its life alongside people. Every trunk carries decades of history: knots, scars, and unique textures that we do not hide, but proudly celebrate.

Once rescued, the wood is cut and left to rest for three years before being crafted. From the first cut to delivery, every step is carefully overseen in our Transylvanian workshop, because we know the furniture we create will be part of your home for generations.

The form is preserved, the essence remains, but every new piece will be, by the very nature of wood, entirely its own. Exactly as it should be.

Light oak

White oak

Black oak

Walnut

Custom-made Epoxy insertions

We have a large stock of salvaged wood which comes with a lot of imperfections. We use epoxy resin to bring an imperfect wood back to life. This tabletop type is available for any of the dining tables in this catalog. Additional costs may apply.

- RESTAURANT TABLES -

Color options:

Dark oak

Natural oak

Spruce

Working with us

Every piece in this catalog is made to order in our workshop in Transylvania. We work directly with architects, interior designers, retailers, and contract clients worldwide.

Where it's made

One workshop. Everything under one roof.

All our furniture is produced in our own atelier in Magina, Alba County, Transylvania. We work exclusively with solid hardwood sourced from old trees that would otherwise go to waste. Metal elements are fabricated in the same facility. Every step, from the first cut to the final coat, happens in house.

Finishes

Two options, both built to last.

All tabletops are available in:

- Polyurethane lacquer, a highly resistant matte finish protective against water, heat, and daily wear.
- Natural oils, a matte organic finish that nourishes the wood and develops character over time.

Colours: Dark oak, Natural oak, Light oak, White oak, Black oak, Walnut.

Customisation

The catalog is a starting point, not a limit.

Every model can be adapted: different dimensions, finishes, or base configurations. We are also open to developing entirely new pieces. Custom collections and contract projects are a significant part of what we do.

Pricing & Trade

No minimum order. Volume discounts available.

A single piece is as welcome as a full container. For larger orders and ongoing trade relationships, we offer commercial discounts based on volume. Trade pricing is available on request.

Lead Time

Typically 6 to 10 weeks.

Every piece is made from scratch after the order is confirmed. For complex contract orders, we provide a specific timeline upfront.

Follow the Making

We document everything.

Production clips, atelier moments, finished work. We post regularly and have a large, active community. Not polished content but the real thing.
